Missouri Humanities Symposium: Water is a virtual event that will bring together students, faculty, and community members to discuss the importance of water.

Register for one or all of the interdisciplinary presentations on April 22-23. Participants will learn how our water tells the story of our region—politically, culturally, spiritually, and environmentally. Join us as we work to better understand and appreciate the connection between natural science and the humanities. Read the Speakers' full biographies at mohumanities.org.

**April 22, 2020**

50th Anniversary of Earth Day

Schedule:
